

URBANSHIELD 2017

Training Together - Responding as ONE

Urban Shield is the largest full-scale exercise in the country with the mission to prepare local (and not local) First Responders for mass casualty acts of violence. The EMS Branch aims to exercise the integration of EMS and medical responders with law enforcement to respond to these incidents to mitigate loss of life. We also have the opportunity to practice managing a treatment area of a large MCI to include triage, re-triage, treatment, reassessment, patient tracking, transport considerations with an Ambulance Strike Team, and turnover to a Mobile Field Hospital.

Ways to volunteer:

- Be an **EMS Participant** where you will receive just-in-time training, rotate through one MCI management scenario, rotate through two law enforcement integration violent-threat scenarios, and conclude in a debrief and evaluation. Medics and EMTs receive 6 CEUs and RNs receive 3 BRN units. (6 hour block— different from OP periods described below).
- Be a static **EMS Evaluator and/or Proctor** where you will be assigned to one scenario and provide feedback and guidance to EMS Participants on their performance. (12 hour block).
- Be an **EMS Trainer and Roving Evaluator** where you will provide just-in-time training for EMS Participants, follow the EMS teams through their rotations to provide feedback and guidance, and facilitate debrief. (12 hour block).
- Be a member of **Checkpoint Staff** where you will perform logistical and/or administrative duties. (12 hour block).
- Be a **role player victim**, casualty, walking wounded or panicked bystander. (8 or 12 hour block).

All volunteers for Urban Shield are subject to background check.

The exercise kicks off at 0500 on Saturday, September 9th and concludes a little after 0500 on Monday, September 11th. Operation (OP) periods are as follows:

9/9 0500-1700
9/9-10 1700-0500
9/10 0500-1700
9/10-11 1700-0500

Please add time on either side of OP period for briefing, turnover reporting, moulage make-up and removal (if applicable). One meal will be provided for each OP period.

This year over 30 SWAT teams representing local, regional and possibly international agencies are signing up to participate.
