

State Trauma Advisory Committee

Project Subcommittee

Minutes

Date September 4, 2015

Time: 1:00 PM–2:00 PM

Roll Call

Debbie Becker; Karen Crain-Riddle; Linda Diaz; Candy Schoenheit; Chris Newton; Lois Blough

Updates on Assignments

Level I/II

Most of the meeting was spent discussing whether we should include all the criteria deficiencies (CDs) in the document or only those that relate to Title 22. There were 2 schools of thought:

1. Don't duplicate the orange book. We can add the CDs as an attachment if need be. Only add CDs that relate to Title 22.
2. Add all the CDs to the document. If this document is to be used by the LEMSA and/or Trauma Center, having all the CDs included helps with not only the preparation but also provides a check list for all survey information.

After discussion it was decided that we should add all the CDs. If the end-user doesn't want them all in they can always adjust their version as it will be provided electronically.

Linda stated that the questions related to the residents would be answered now that all the CDs are going to be added.

Action: Linda, Lois, Cheryl, and Kathy need to go over their sections again to include all the CDs. Bonnie will add the FAQs afterwards.

Level III Debbie Becker

Debbie showed us what she has done so far. There were some additions from Title 22 which we need to make sure are in all our documents.

Pediatric I/II Chris Newton/ Jennifer Wobig

Chris and Jenn have started working on their document and will have it ready for the next call. We will review this document before going on to Level IV.

PRQs Bonnie

Bonnie has completed the Level IV PRQ. The new format was approved by the group. Candy agreed to work on the Level I/II PRQ.

Next Conference Call

Bonnie will send out a "doodle" to select a date
